Art Unit: 1711

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 18, 2006 has been entered.
2. Applicants' amendment of May 18, 2006 fails to comply with the provisions of 37 CFR 1.121 in that the text of cancelled claims has been set forth.
3. Claims 32 and 43 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Within the last line of claim 32, the usage of the word, "here", appears to be improper. As a result, the claim cannot be clearly understood.

Within claim 43, applicants have claimed a polyurethane article; however, the claim additionally refers to molds for producing golf balls and a cast golf ball cover; therefore, it is questioned if the article is intended to be limited to a golf ball.

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference

claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 30, 32, 36-38, 40, 43, 44, 48, 49, and 53-58 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-29 of U.S. Patent No. 6,719,646. Although the conflicting claims are not identical, they are not patentably distinct from each other because each set of claims is drawn to a golf ball comprising a polyurethane cover produced from the same diisocyanate, polyol, and curing agent blend.

6. Claims 30, 32, 36-38, 40, 43, 44, 48, 49, and 53-58 are provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-3, 6, 10, 14, and 16 of copending Application No. 10/904,643. Although the conflicting claims are not identical, they are not patentably distinct from each other because each set of claims is drawn

to a golf ball comprising a polyurethane cover produced from the same diisocyanate and polyol and a curing agent blend comprising diethyl-2,4-toluene diamine.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
